

## RECOsystems WB 550

## electric wire comb closer

The RECOsystems WB 550 is a popular wire closing machine for bookbinders or printers who produce medium or bigger quantities. The change of the wire diameter can be done in some seconds. By pressing the foot switch the upper closing bar goes down and the wire comb is closed. The construction of the machine is very robust and durable.

## technical data:

- max binding width: 550 mm
- closes 3:1 und 2:1 wire combs
- closing with foot switch
- for diameters of  $\varnothing$  4,8 mm - 38 mm (3/16" - 1 1/2")
- 230 V / 50 HZ
- weight: 55 kg
- machine size: 555×700×275mm
