AP 355

AUTOMATIC PUNCHING MACHINE A4

RECOsystems AP 355

Automatic punching machine

The AP 355 is an automatic punching machine used by customers who mainly process formats up to A4.
The maximum punching format is 355 (punch side) x 304 mm.

When changing the format, the size is entered on the display and the machine then adjusts itself electrically.

The tool change is also carried out in a short time. Most customers punch of 8-12 sheets of 80 g/m paper per stroke.
